Enjoy a beautiful garden with light

Philips myGarden Seasonal wall light is a compact and modern light that emits plenty of warm light from its distinctive pebble shape. Ideal for creating a wide area of light, it's the perfect choice for outdoors.

Designed for your garden

- IP44 - weather proof

Sustainable light solutions

- Energy saving
- Warm white light
- Always a Philips bulb included

PHILIPS

Wall light
Seasonal inox

Highlights

Warm white light

Light can have different color temperatures, indicated in units called Kelvin (K). Lamps with a low Kelvin value produce a warm, more cosy light, while those with a higher Kelvin value produce a cool, more energising light. This Philips lamp offers warm white light for a cosy atmosphere.

Always a Philips bulb included

High quality Philips EcoLamp energy efficient light bulbs are included in the box to achieve the best light effect.

Energy saving

This Philips energy saving lamp conserves energy compared to traditional light sources, helping you to save money on your electricity bills and do your bit for the environment.

IP44 - weather proof

This Philips outdoor light is especially designed for humid outdoor environments. It was tested rigorously to ensure its water resistance. The IP level is described by two figures: the first one refers to the protection level against dust, the second against water. This outdoor light is designed with IP44: it is protected against splashing water, this product is most common and ideal for general outdoor use.
