## Warm white light, no compromise on light quality

### Create a warm, inviting ambiance

Philips LED light bulbs provide a beautiful, warm white light, an exceptionally long life, and immediate, significant energy savings. With a pure and elegant design, this bulb is the perfect replacement for your frosted traditional bulbs.

#### Create a warm atmosphere

- True incandescent-like warm white light (2200 - 2700)K

#### Pure and elegant design

- Perfect fit and high quality finishing

#### Instant brightness

- Instant light when switched on

#### Save on energy

- Saves up to 80% energy

#### Objects are seen in their true, natural colors

- High color rendering (CRI > 80) for vivid colors

# PHILIPS

Bulb  
8W (60W) E27, Warm white, Frosted

# Specifications

## Bulb characteristics

- Shape: Bulb
- Cap/fitting: E27
- Voltage: 220-240V/50-60Hz V
- Dimmable: No

## Power consumption

- Wattage: 8 W
- Energy efficiency label: A+
- Wattage equivalent: 60 W
- Power consumption per 1000h: 8 kW h

## Light characteristics

- Light output: 806 lumen
- Color: Warm White
- Color temperature: 2700 K
- Light effect/finish: Warm White

- Color rendering index (CRI): 80
- Starting time: <0.5 s

## Durability

- Lifetime of lamp: 15000 hour(s)
- Number of switch cycles: 50000
- Lumen maintenance factor: 0.7
- Average life (at 2.7 hrs/day): 15 year(s)

## Bulb dimensions

- Height: 110 mm
- Width: 60 mm

## Other characteristics

- Lamp current: 75 mA
- Lamp Classification Risk Group: RG0

8718696577073

# Highlights

## Warm white light(2200 - 2700)K

Light can have different color temperatures, indicated in units called Kelvin (K). Bulbs with a low Kelvin value produce a warm, more cozy light, while those with a higher Kelvin value produce a cool, more energizing light.

## Beautiful, switched on an off

Familiar shapes are a perfect fit for your fixtures: we have retained the shapes and appearance of the classic light bulb.

## High color rendering (CRI>80)

The color rendering index (CRI) is used to describe the effect of a light source on color appearance. Natural outdoor light has a CRI of 100 and is used as the standard of comparison for any other light source. The CRI of Philips LED light bulbs is always higher than 80, close to the sun's value, reflecting colors truly and naturally.

## Instant light when switched on

No need to wait: Philips LED light bulbs provide their full level of brightness immediately upon switching on.

## Saves up to 80% energy

Save up to 80% energy compared to your standard bulb. It pays for itself and saves you money year after year. So reduce your energy bill and start saving Now.
