Brilliant in saving energy

Halogen quality light with 30% energy saving

The traditional bulb has evolved. This Philips halogen lamp guarantees 30% instant energy saving to a standard bulb. The New Classic light bulb gives quality light and is dimmable. It's the cheapest way to start saving energy.

Extra brightness

- Bright halogen light provides better contrast for more focus

Instant start

- Immediate light when switching on

Create a cosy atmosphere

- Fully dimmable, down to a warm glow

Long-lasting

- Double the lifetime of a standard bulb

Specifications

Technical specifications

- Mercury content: 0 mg
- Starting time: 0,01 s
- Power factor: 1
- Lifetime of lamp: 2 year(s)
- Rated lifetime: 2 year(s)
- Rated power: 18 W
- Wattage: 18 W
- Wattage equivalent: 25 W
- Lamp dimension (width): 51 mm
- Lamp current: 78 mA
- Lamp dimension (height): 86,3 mm
- Color rendering index (CRI): 100
- Voltage: 230 V

- Lifetime of lamp: 2000 hour(s)
- Rated lifetime: 2000 hour(s)
- Color temperature: 2800 K
- Number of switch cycles: 8000
- Lumen maintenance factor: 0.85 (at the end of the nominal lifetime) %
- Fitting/Cap: E14
- Light effect / finish: Frosted
- Warm up time 60% light output: 0 s
- Shape: Spot
- Color: Warm White
- Dimmable
- Wattage standard bulb: 25 W

Highlights

Halogen contrast for focus

With the bright light of these Philips halogen lamps, contrasts get richer, letters become sharper and visibility gets better. Bright light is more relaxing for your eyes for a better focus.

Immediate light when switch

Just by turning the switch your room is at full brightness. No slow starting, No waiting but immediately light.

Fully dimmable, down to glow

Dimmable with all dimmers, these Philips lamps are able to dim down to all the spectrums, from a bright halogen light to a warm orange glow with just a bit of light.

Double lifetime of a bulb

This lamp lasts twice as long as a standard bulb. So it replaces two lamps, for lower cost and less hassle. The lifetime is based on the average usage of 2,7 hrs per day or 1.000 hrs a year. This average is influenced by the usage during different seasons (dark winter vs light summer), the weather conditions (sunny vs rainy dark day) and on the room where the lamp is used (short usage in bathroom vs long usage in living room).
